

## **Tribal Flag Competition**

This is your opportunity to let your tribe's creativity shine. There are few boundaries on how your tribe designs this flag. Take this week to do some research on your tribe. Their culture or hobbies may be great aspects to showcase.

Flags need to be hung by the judging time in your campsite.

### **General Guidelines:**

Flags must state the tribe's name

Some materials may include leather, felt, or canvas. Felt is recommended

You can hang your flag between two trees, or you can use PVC pipe.

This contest is optional, and not meant to "bust the bank." So utilize as many household items, or items from nature to complete this task. It's recommended that you work on this flag at the campout.
